

US Beltie News

THE OFFICIAL PUBLICATION OF THE BELTED GALLOWAY SOCIETY, INC.

Council meets in Fryeburg, ME

President Michelle Ogle

I am writing this month's message as I relax in my hotel room after an amazing weekend steeped in all things Belted Galloway. I want to thank the New England Galloway Group and the management at the Fryeburg Fairgrounds for the wonderful welcome they extended to the Council of the Belted Galloway Society during the last few days. Over the past 20 years, I have been impressed by the total dedication, hard work, and friendship offered by the breeders and participants in the National Belted Galloway Sale and Fryeburg Youth Show. The amount of planning and time it requires to put on an event like this is huge, and takes the help and cooperation of many people. In particular, I would like to acknowledge Scot and Christine Adams (ME) and commend them on a job well done. Their dedication to the event and the breed is greatly appreciated. Because of this dedication and

love of Belted Galloway cattle, I am excited to announce that Scot Adams will be the new Chairman of the Belted Galloway Junior Association! I am looking forward to working with Scot and I am confident that our Junior members are in excellent hands.

The Spring Council Meeting was also held in Fryeburg, ME. Council spent two days in meetings. One particular item that Council worked on was the mission statement of the Society. In 2009, a mission statement was passed by Council. Upon review, it was determined that the preamble of the original charter of the Society was a better fit to the purpose of the Society.

"The mission is to promote the Belted Galloway breed of cattle, to preserve the purity of the breed by maintaining pedigree records and data, to disseminate information relative to said breed of cattle and to carry on all legal and proper activities to effectuate the primary purpose of the corporation."

Calendar reminders:

Rock County Beef Preview Show

May 17, 2014. Rock County Fairgrounds, Janesville, WI. Contact: Julie Willis (815) 547.6912 or sbfarms@hotmail.com.

Annual Northeast Livestock Expo

May 16-18, 2014. Windsor Fairgrounds, Windsor, ME. Contact Jess Strout (207) 399-9268 jess.strout@gmail.com.

Great Lakes Belted Galloway Association Field Day

May 23-24, 2014. HC Sims Farm, Harrodsburg, KY. Contact Jeff Kaufman (540) 280-5388 or hcsimsfarms@gmail.com.

Southwest Belted Galloway Show and Sale.

June 14, 2014. Henderson County Fairpark Complex, Athens, TX. Contact Scott Griffith griffithcattle@me.com or (903) 203-4397.

Midwest Classic

July 5, 2014. Winnebago County Fairgrounds, Pecatonica, IL Contact: Julie Willis (815) 547.6912 or sbfarms@hotmail.com.

Wisconsin Farm Technology Days

August 12-14, 2014. Portage County, Stephens Point, WI. Contact: Terry Etheridge (715) 835.4043 or tekattle@yahoo.com.

Fly Control is a Must

Clay Wright, The Samuel Roberts Noble Foundation

To people, time flies when you're having fun. To frogs, time's fun when you're having flies. To cattle producers, however, "fun" and "flies" are never used in the same sentence. These pests cost the livestock industry hundreds of millions of dollars every year.

Consider horn flies — each one will take 20 to 30 blood meals each day and may travel a couple of miles to do it. They have been implicated in the spread of blood-borne diseases. Adults live almost two months. The 300 to 500 eggs the female horn fly lays can mature to adults in two weeks. Face flies reproduce even quicker (8 to 10 days) and in equal numbers. Face flies aren't "out for blood," but instead feed on the moisture around their hosts' eyes, nostrils and mouths. Face flies are one of the main means of spreading pinkeye. Then there are stable flies, horse flies and heel flies (the larval stage is the cattle grub).

The biggest cost of fly infestations is not disease or blood loss; it is the constant irritation and aggravation they cause cattle. Cattle will expend tremendous energy stomping and swishing, they'll head for the shade to lie down, stand belly deep in the pond or bunch up in groups to try to get some relief from the constant onslaught of flies. Horn flies, for instance, stay on cattle 24 hours a day. It follows that performance is going to suffer, and it doesn't take large numbers of flies to get into your pocket book. Most research has shown that the economic threshold is 100 to 200 flies per side, or 200 to 400 per animal.

That's not many flies for a significant loss in production. Threshold levels can reduce summer stocker gains by as much as 50 to 70 pounds over the season. Lower milk production in the cow and growth in the calf can reduce weaning weights by 20 pounds or more in the fall. So, fly control is a critical aspect of late spring, summer and early fall management and offers a cost: benefit ratio equal to implanting or internal parasite control.

There are many choices of control methods and products: sprays, pour-ons, dusters, rubs, ear tags, mineral and feed additives, dips, traps and boluses. The right one or combination depends on your own situation. Regardless of which you use, though, the fly population must be susceptible to the product. Regular monitoring and adjustments are needed to ensure adequate control during the season. It is a fact that fly populations can build resistance to any of the chemicals in these products, both the pyrethroids and their synthetics and the organophosphates. A standard recommendation is to rotate the class of product used each year to minimize this problem. Here are a few considerations associated with some of the methods.

Sprays

Quick knockdown with some residual for 2 to 6 weeks depending on rainfall; several applications may be necessary; works well in combination with other methods.

Pour-ons. Good knockdown as initial treatment; some only

NEGG Heifer Project

Meghan Bickford, Chairman NEGG Heifer Project

We at the New England Galloway Group are pleased to announce that Matt Messenger of Bed Rock Farm in Strafford, NH is our 2014 Heifer Project Recipient. Matt is 11 years old and has been working with and showing cattle since 2008. He has shown two pairs of oxen and several beef steers. Matt became interested in the Belted Galloway breed when he bought his first Belted Galloway cross steer, Wally, in 2012. He entered the Heifer Project in hopes of getting his very own heifer, and starting his own herd.

Matt is an active sports player and an active member of his 4-H club. He has been on the All Star Baseball Team for three years. He volunteers by shoveling snow for the local town office and for his grandparents. Matt has also donated a cord of wood to help raise money for his 4-H club. Carrey Steven, Matt's 4-H leader, said the whole club was rooting for him to win the heifer. They were all very excited for him when he got the good news.

Partridge Meadow Rhonda 36572B was provided by Richard and Susan Paul of New Hampshire. Matt looks forward to growing his own herd of Belted Galloway cattle.

get blood feeders (systemic) so face flies aren't affected; others are topical (contact); generally limited to a month or so of control, so must be repeated or used with another method.

Tags. Can be effective as a stand-alone control for up to 5 months; don't apply until flies are present in near threshold numbers in late spring or early summer; use recommended number, usually two per animal; remove after 5 months of use (earlier if effectiveness declines); consider knockdown with spray or pour-on when tags are applied.

Rubs. Can be effective as stand-alone control, especially if forced-use is possible; should be re-charged regularly, after each rain event or every 2 to 4 weeks.

Dusters. Can be effective if maintained regularly and forced-use is possible; usually must be protected from weather to prevent caking.

"Feed-through" larvicides. Available in mineral, block or feed additive; individual intake can vary with any self-fed product; does not control migrating adults from neighboring ranches or herds, so probably should be used with another method.

Most of the fly-control products have no withdrawal time, but some do. Most will also recommend a minimum treatment interval. As always, read and follow label directions.

Fly control is critical to the health and performance of cattle. While some methods and products may seem expensive and/or labor intensive, it is a practice that will more than pay for itself during the season.

2014 National Belted Galloway Sale & Fryeburg Youth Show

Scott Adams, President NEGG

The 24th Annual National Belted Galloway Sale, in conjunction with the Fryeburg Youth Show, was held the last weekend in April at the Fryeburg Fairgrounds in Fryeburg, ME.

I would like to say thank you to all the Council members who attended the sale and used our venue to hold the spring meeting of the Belted Galloway Society, Inc. We appreciate all the time Council puts into representing all the breeders around the country.

As the sale day began, I was able to watch all the owners and buyers mingle together and share their passion for this wonderful breed of animals. After the long winter we all endured, it was surely a ray of sunshine. I would like to thank all the consignors and buyers, each of you make this sale a success year after year. To the NEGG members who work both before and after the sale, it could not be possible without each and every one of you, you have my gratitude!

The National Sale began with the 2014 NEGG heifer recipient, Matt Messenger, receiving his heifer provided by Partridge Meadow Farm. This was followed by Michelle Ogle (NJ) addressing the crowd and presenting Ron Howard (ME) with the Harry T. Burn Award. Congratulations Ron! Once again, Tom Carper (IN) served as our auctioneer and the sale was off and running.

22 live lots sold for an average of: \$2,723.00
7 lots of semen sold for an average of: \$518.00 per lot
1 embryo lot sold for: \$1,800.00
Total Sales: \$66,275.00

Many thanks again to everyone who helps to make this sale a great event. I hope to see everyone again in 2015 for the 25th National Sale.

2014 National Sale Highest Selling Bred Heifer Lot, Moonshadow Jasmine 35411B. Consigned by Moonshadow Farm (ME) purchased by Kiyiwana Farm (NY) for \$4,500.00.

Highest Selling Open Heifer and Tyler Cup Award Winner, Pine View Delight 35687B. Consigned by Pine View Farm (ME) purchased by Magnolia Trace Farm (MS) for \$3,650.00.

Ron Howard (ME) was presented the Harry T. Burn Award before the National Sale in Fryeburg, ME. Four generations of the Howard family were present. Howard was nominated and chosen because of his outstanding support and promotion to the Belted Galloway breed. Look for Ron Howard's nomination to be featured in the *2014 Belted Galloway Journal*.

2014 Grand Champion Female, Fryeburg Youth Show, TSVM Ophelia (AI) 36834B. Bred by Tufts School of Veterinary Medicine (MA). Owned by Victoria Oatley (RI).

Spring Council Meeting

The Spring Council meeting was called to order at 9:15 a.m. April 25, 2014, in Fryeburg, Maine by President Michelle Ogle (NJ). Present: Past-President and Treasurer Jon Bednarski (KY), Leanne Fogle (IL), Scott Griffith (TX), and Secretary Lisa Lovett (IL). Also present was Executive Director Victor Eggleston (WI). Leanne Fogle represented the newsletter office. Absent: Jane Hemmer (GA), Vice-President Greg Hipple (IA), Brice Jackson (IN) and Chuck Neely (VA).

Secretary's Report. Lisa Lovett reported membership totals during 2013 were 705 Regular, 138 Junior, 15 Associate and 119 Life for a total membership of 977. The 2013 registration/ transfer data included 271 Males, 849 Purebred Females, 111 Appendix Females and 1023 Transfers. Total transactions were 2,254. Current membership through March 31, 2014: 566 Regular, 85 Junior, 11 Associate, 121 Life, for a total of 783 memberships. Transactions for the first three months of 2014 include: 71 Male, 325 Purebred Female, 44 Appendix, and 235 Transfers for a total of 675 transactions.

Treasurer's Report. Jon Bednarski accepted the role of Treasurer of the Belted Galloway Society, Inc. in January 2014. He reported the Society has \$19,823.71 in checking, \$25,817.49 in savings, and \$101,186.72 in a certificate of deposit. Society assets total \$146,829.72.

Annual General Meeting. Chairman Jon Bednarski announced the 2014 Annual General Meeting will return to Louisville, KY. The meeting will be held in conjunction with the National Belted Galloway Show and Premium Sale during the North American International Livestock Exposition. The Hilton Garden Inn will be hotel headquarters and the location of the annual meeting. The committee is considering adding an educational program to the event.

Budget and Finance. Executive Director Vic Eggleston reported the Society budget was approved during March 2014. Eggleston reviewed the approved budget with Council.

Belted Galloway Junior Association. President Ogle announced that Scot Adams (ME) has been appointed as chairman in 2014. Adams was present during the meeting and is excited to assume the role. Adams has plans to meet with regional leaders. His objectives include educational programs, breed promotion and developing youth leadership roles.

Chatfield Scholarship. President Ogle announced that Jane Jackson (IN) is the chairman of the committee. Jackson has established a timeline for the 2014 selection process. Scholarship applications are due April 30, 2014 and the committee will make their final decisions by May 20, 2014. The winners will be announced in the newsletter and profiled in *The Belted Galloway Journal*.

Information and Technology Committee. Chairman Scott Griffith asked Council for their input regarding the new website that has been launched. New photos will be added and Council submitted information to be updated. The site will no longer include

a Meet the Breeder's page and the Breeder's Directory. A link to the CLRC website will replace those pages so that all breeders will be linked to www.beltie.org. The committee will generate an online survey.

Long Range Planning Committee. President Ogle named Andy LeMaistre (ME) as chairman the committee. Vic Eggleston has communicated with Andy LeMaistre to establish long and short-term goals. Council has made a request of the committee to investigate adding the purebred mismarked cattle to the Herdbook proper.

Promotion and Advertising Committee. Chairman Bednarski reported that Connections will begin ad sales in 30 days for production of *The Belted Galloway Journal*. Media kits have been developed to attract outside advertisers. The calendar contest will continue and the theme is "Cows and their Calves" with a photo submission deadline of July 1, 2014. Calendars will be available in August 2014. The calendar will continue to include breeding dates. Chuck Neely (VA) worked with Bednarski to develop a Belted Galloway specific nutritional card that may be inserted in the breed brochures. Members may make their requests for the inserts to the executive director's office.

Newsletter Committee. Chairman Leanne Fogle presented cost comparisons to print the newsletter in black and white versus color. Council approved the recommendation to print the newsletter in color.

Sale Committee. Chairman Michelle Ogle reported that the 2014 Belted Galloway Premium Sale will return to Louisville, KY. A change of venue has been planned. Sale cattle will be present, but cattle will be sold via video immediately following the Annual General Meeting and Banquet at the Hilton Garden Inn. Buyers will be encouraged to allow the cattle to be shown the following day in the National Show but it will not be a requirement.

Show Committee. Chairman Michelle Ogle made several recommendations to Council. Council approved that show entries for Purebred Appendix cattle and percentage Appendix cattle must total at least five of each or more, to hold separate classes and championships in both the Open and the Junior Show at Louisville, KY. Council approved the age of the calf at the side of a cow being shown should not be over 270 days. Council took no action regarding the current rule allowing cattle to be shown by a Junior member at a Junior show that are co-owned with an adult member. Council approved adding a Bred and Owned class(s), and awarding a Bred and Owned Champion/Reserve at Louisville, KY during the Junior show. Council approved offering a separate division and Champion/Reserve for Cow/Calf pairs during the Junior show at Louisville, KY. Council took no action to augment or change the current Lifetime Point system and classifications.

New Business.

2015 Spring Council Meeting. Council is considering holding the 2015 Spring Council Meeting in Texas.

Preamble/Mission Statement. Council moved to change the Society's mission statement previously adopted in in 2009. Council approved establishing the original preamble of the Soci-

ety as the official mission statement: The mission of the Belted Galloway Society Inc. is to promote the Belted Galloway breed of cattle, to preserve the purity of the breed by maintaining pedigree records and data, to disseminate information relative to said breed of cattle and to carry on all legal and proper activities to effectuate the primary purpose of the corporation.

World Conference. Jon Bednarski will submit a proposal to hold the World Galloway Conference in the US during 2018 or 2020.

Old Business. Council held round-table discussions of concept programs to further the Belted Galloway breed.

Other business. Executive Director Eggleston announced that the Belted Galloway Society, Inc. is the second largest beef breed association that CLRC represents. Jon Bednarski will continue to do farm visits through 2014.

Advertising and Promotion

BELTIE BEEF

"SIMPLY BETTER BEEF"

Whether grain or grass finished, heritage Belted Galloways or "BELTIES" produce a tender, flavorful beef that is simply better than the rest.

NUTRITIONAL FACTS

— Belties are an ancient breed of Galloway — cattle that are rugged, efficient, and able to convert a wide range of forages into delicious meat. Galloway breeds date back over 1,000 years and are the ORIGINAL GOURMET BEEF.

Nutritional studies done in 2009 (chart below), — show how the Belted Galloway breed — surpasses the USDA standards for both grain finished and grass fed. Lower in saturated fat, and higher in beneficial CLAs, Beltie beef — is a healthy, delicious choice.

Per 100g Sample	Grass-Fed Beltie	Grain-Finished Beltie	USDA
Total Calories	119	177	274
Fat Calories	27	102	234
Total Fat (g)	3	11	22
Saturated Fat (g)	1	5	9
Cholesterol (mg)	11	47	68
Protein (g)	23	19	18
Calcium (mg)	18	16	10
Total Fatty Acids	9	18	20
CLA	0.07	0.11	0.1

These nutritional findings represent the opinion of their authors and have not been peer reviewed. They represent only an estimate of what farmers and consumers may find and are not to be used as absolute nutritional information. Reports from both studies can be found at www.beltie.org

CONTACT THE BELTED GALLOWAY SOCIETY TODAY TO FIND YOUR LOCAL PURVEYOR OF BELTIE BEEF!

WWW.BELTIE.ORG
(608) 820-1091
EXECUTIVEDIRECTOR@BELTIE.ORG

Jon Bednarski, Chairman of the Advertising and Promotion Committee

The Advertising and Promotion Committee has completed a marketing card of our in-depth nutritional study. Committee member Chuck Neely (VA) took the committee's original draft and worked with his graphic designer to create this easy to read version. This valuable nutritional information can be used to direct market Belted Galloway beef to consumers or when selling breeding stock or bulls to your cattle buyers. The Society will make this promotional piece available for free to our members. These cards are available in packs of 25 with a maximum of 100 for a single farm by contacting our Executive Director by phone or email.

2015 Calendar Contest

The 2015 Calendar will feature the theme "Cows and their Calves." Spring calving season is here and now is a great time to take those photos. The calendar will include breeding dates and we will have thirteen different 8.5 x 11 color photos.

The first-place photo will receive a \$200 CLRC credit and the second-place photo will receive a \$100 CLRC credit. Those credits can be used for membership fees, registrations, or transfers. All 13 winners will receive three complimentary calendars. The 2015 calendars will be available by August 1, 2014 to be sold at late summer and early fall shows and events. Below are a few contest rules to review:

- Digital cameras must be 5 megapixels for optimal imaging.
- No more than three color photographs per person.
- The contest is open to 2013 BGS members.
(Life, Regular, Junior and Associate)
- All photos become the property of BGS.
- Photos must be horizontal to fit the calendar format.
- No iPhone or iPad images.
- Submit digital images to jbednarski@beltie.org.
- All photos must be submitted by July 1, 2014.

The 2015 calendars will be available to order on www.beltie.org, at shows, sales and events.

For Sale

KANSAS. FSB Wiga's Zopper (AI) (ET), Registration 35957D, DOB 4/16/12. Zopper is an embryo transfer bull out of the three time national Grand Champion Anderson Hill Bopman. The dam of Zopper was a champion heifer at the Fryeburg Fair, Aldermere Wiga 1W, who goes back to the Riga cow family at Aldermere. Zopper's first calf crop is due in 2014 and will sire growthy calves with a lot of natural muscling and thickness. If you are looking for a bull with a superior genetic package and some great growth genetics don't pass on Zopper. Check out a YouTube video of Zopper. He is the only dun bull in the video. This is a very good bull. We always tell breeders a good bull is half your herd and a bad bull is 100% of your herd. If interested please feel free to contact Greg Starr DVM at Four Starr Belties, Olathe, KS (913) 634-3494 ordvmstarr@yahoo.com. The bull is located in central Missouri. FSB Wiga's Zopper - YouTube

NORTH CAROLINA. Registered Bull. Southern Wood Selkirk, 35752B, DOB 3/22/13. Excellent belt, and conformation, with a good disposition. For sale or trade for a bred heifer. Also bred and open cows for sale. Southern Wood Farm, Pittsboro, NC 27312. E-mail or call jess@tcaco.com (919)542-6602.

VERMONT. Herd Reduction. 100% Grass-fed, registered breeding females, calves and steers. Cow/calf pairs with some bred for fall calving and some open yearling heifers. Exceptional genetic packages and very nice dispositions. All colors: black, red and dun. Contact: Steve Downing, Meadow View Farm, Lyndonville, VT 05851 (802) 626-1116. E-mail: Info@Meadow-view-farm.com. Website: www.meadow-view-farm.com.

PENNSYLVANIA. Two purebred cows for sale. One three-year-old female, very easy to handle, sired by Highland Farm Sid. The other cow is a five-year-old female who is also very gentle and sired by Timber Rock Romeo. Photos available upon request. Max & Deanna Shaffer, Clearville, PA. (814) 784-3389 or shaffmax@gmail.com.

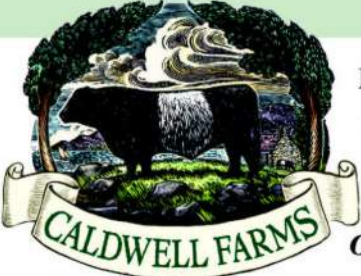

IOWA. Purebred Belted Galloway yearling bulls for sale. Flat Top Navorro 36950B DOB 5/11/2013. Flat Top Sweat River 36949B DOB 4/11/2013. For photos check out www.flattopfarm.com or e-mail shooter@plumbers-supply.com. Text or call (319) 330-8230. Chris & Angie Lehman, Flat Top Farm, Iowa City, IA.

VIRGINIA. Two beautiful registered dun Belted Galloway heifers for sale. Back Hill Margaret. DOB 7/8/13. Back Hill Anna DOB 8/21/13. Sired by Goose Creek Silver Bullet and out of registered black Belted Galloway dams with excellent bloodlines. Weaned 2/28/14. Up-to-date on all vaccines and will be ready to go by the end of May 2014. Our herd is grass-fed, raised without antibiotics or growth hormones. Photos available upon request. Kathy Higgins, Back Hill Farm, Staunton, VA (540) 414-1804 or kjbhiggins@me.com.

MISSOURI. Three registered black and white heifers: Bear Creek Lynn 9/8/13, Bear Creek Sarah 9/18/13, and Bear Creek Crystal 2nd 9/30/13. All are quality heifers with good conformation and nice belts, sired by multi-champion bull, Oak Valley Lone Ranger. Breeding on their dams' sides: Lynn - Northfield Donald and Shiralee Moonshine; Sarah - 4WF Trailblazer, Holbrook Hill Knickerbocker and Klover Korners; Crystal-Mar Pine and Prock Ridge. Bear Creek Farm is located in Columbia, Missouri. Contact Mary Sapp sappml@umsystem.edu or (573) 442-6230.

OKLAHOMA. Two young black and white Belted Galloway bulls for sale. OK Hills Brad Pitt 36397B, DOB 3/17/13 and OK Hills Lon Cheney 36543B, DOB 6/24/13. OK Hills Farm, Midge Graves & Bud Hammons, Coyle, OK. (405) 612-27163 mgraves@rollton.com

WEST VIRGINIA. For sale a three-year-old black, registered cow with Fearrington heritage. She has a black heifer calf at side, born 1/21/14. Please contact Gary Leadmon, Leadmon Farm, Charleston, WV. (304) 925-2455 or deana147@yahoo.com.

TEXAS. Registered Belted Galloway cattle. Two three-year-old cows with calves at side. Calves are a five-month-old bull (36757-B) and a five-month-old heifer. We will sell as pairs now or separately in May. Also a three-year-old heifer for sale. Contact Tammy Vierkant, Four Square Ranch, Bullard, TX. Please call Tammy at (903) 360-3422 or email mtvierkant@yahoo.com.

NEW HAMPSHIRE. Registered black Belted Galloway heifer for sale. Twenty months old; halter broke; nice belt; white on left rear toe; photos available. Contact Jim Gleason, Gleason Farm, Henniker, NH (603)-428-3869 or kathigleason@me.com.

MICHIGAN. Belted Galloway bull for sale, black and white, 36359B. Good conformation, and even better genetics. DOB 7/20/14. Contact Boone DeShano (989) 312-4993 or adpfarm@gmail.com. ADP Farm, Gladwin, Michigan.

CONNECTICUT. Some bred cows, heifers, steers, available. Carrying, black, dun, and red genes. Good does on grass only. Birdseye & Tanner Brooks Farm, Kent, CT. Raising Galloways on Grass since 2002. Contact Mark (860) 671-0542. Look us up on the web www.betbrooksfarm.com.

ILLINOIS. Two well-muscled steers born 5/26/13 and 7/17/13 weighed 680 lbs. and 610 lbs. on 3/20/14. They should be ready for harvest in the fall. Two yearling heifers shown last year. Gentle disposition and very easy to handle, could be shown again this year. Both heifers are out of Sunnybrook Liberty, past show bull of the year and grade dams. Sunnybrook Amanda, 3/4/2013, A35924, was a class winner at WBE in 2013. She has a Panda face with a wide belt. Sunnybrook Regina, 2/17/13, A35925-B1/2BGXX, was past division champion at the Midwest Classic show. All the cattle can be viewed at: www.sunnybrookbelties.com or call Sunnybrook Farms, Belvidere, IL at (815) 547-6912.
