

© Westwoods Farm (KS)

President Greg Hipple

Happy Birthday America! It is hard to believe another year is half over. It seems like only yesterday that there was snow, mud, and the start of calving season. Fast forward to today, and it is hot and humid. The cows are running with the bulls and the spring born calves are half way to weaning. Where has the time

gone?

members that they found the survey email from EDJE in their spam folder.

We will extend our deadline to gather your input until August 1, 2016, and then close the comment period. The Long Range Planning Committee and Council will use the information you provide to guide them in their decision. In my opinion, it is the Council's job to represent you, the member. It is imperative that you respond and let us know how you want things done by returning the survey.

On May 1, 2016, the Society sent out an important membership survey to give you, the member, the opportunity to tell Council your opinions regarding the Appendix recordation of mismarked purebred females. Six weeks later, we have heard back from only a small percentage of our membership. We need to have more members respond! With this small of a response, there is no clear cut direction that is evident. To better the number of responses, our IT services provider, EDJE, re-sent the survey invitation to all of our members in an email June 22, 2016. The survey was also linked directly to our homepage beltie.org. If you have an email on file with the CLRC, and you do not think you received the survey, check your spam folder. I have been told by some

I have to make note that we just returned from Rock Springs, Wisconsin, where the Great Lakes Belted Galloway Association held their annual meeting and field days. It was great to see many long-time fellow Belted Galloway enthusiast friends and to have met so many more. The hosts, Matt and Jill Messmer, made the weekend memorable and enjoyable for all in attendance. It was an honor and privilege to have 70 members engage Executive Director Vic Eggleston, GLBGA President Terry Willis, and me in an informational panel type discussion after the banquet Saturday evening. I, for one, took home a lot of information from that meeting. Enjoy the summer everyone!

ALL ADS DUE JULY 29, 2016

The Belted Galloway Journal is an annual publication of the Belted Galloway Society. The Journal has become the breed's most valuable marketing literature. The Journal is distributed at state and county fairs, regional beef expos, national livestock shows, and anywhere the Belted Galloway Society can promote the breed!

We believe:

- Belted Galloway cattle are the best suited beef breed for a growing population of individuals who are interested in living a rural lifestyle and raising tender and nutritious beef.
- Belties are a beef breed that is ideal for small acreage beef production because of their moderate size plus their utilization of grasses more efficiently.
- Belted Galloway cattle are a BEAUTIFUL breed.

The Belted Galloway Society is committed to:

- Promote the Belted Galloway breed of cattle.
- Preserve the purity of the breed.
- Provide mentoring opportunities to our youth

Great Lakes Field Days — Rock Springs, Wisconsin

The Great Lakes Belted Galloway Association held their annual field days in Rock Springs, Wisconsin at Matt & Jill Messmer's Messmerizing Farms. The event drew more than 70 cattlemen and cattlemen with the opportunity to network and share information.

Karl Burgi, Baraboo, Wisconsin; a world renowned hoof trimmer, demonstrated proper hoof trimming and attendees were able to get up close and ask questions during his presentation.

Mike Athens, an award-winning chef, trimmed a shoulder of Messmerizing grass-fed Belted Galloway beef, discussing how to cook lean meats. After the demonstration, he returned to his kitchen, and prepared the beef for the evening meal. Local veterinarians, Dr. Melissa Haug gave a detailed presentation on embryo transfer and Dr. John Laukant discussed vaccinating your herd to

optimize reproductive health and immunity.

Matt Messmer and Wisconsin natural resource agent, Aaron Pape, invited guests on a pasture walk and discussed rotational grazing, soil and grasses. Guests also enjoyed the beautiful farm gardens.

A local winery, tour, an auction to benefit the regional juniors, and a scrumptious dinner of Belted Galloway beef was the end to a perfect day of education, fun and fellowship.

Last call to take our survey!

For decades purebred mis-marked females have been assigned a mismark code and recorded in the Appendix registry. Also, the Appendix registry has recorded percentage females who were sired by a purebred bull.

Will policy change with how purebred mismarks are recorded and will the upbreeding program end? It's up to the membership and your opinions are vital!

During May all Belted Galloway breeders with an email address on file with the CLRC received the survey. The survey questions were also printed within the June newsletter to give members who did not receive an email the opportunity to complete and mail a paper copy.

If you responded to the survey: Thank You! However, we still would like to hear from more of our breeders.

A second opportunity to take the survey has been emailed to the membership and the survey now appears on beltie.org as another option to respond.

New Breed Literature

A new breed brochure has been created to promote the Belted Galloway breed. The pamphlet was designed so that the nutritional card will tuck conveniently into it. Contact the office to order Society materials to promote the Belted Galloway breed.

A Message from the CLRC

Jim Washer, CLRC General Manager

Canada Post has indicated that a potential labor disruption will occur as early as the end of June and mail service may be affected.

This will specifically affect mailed applications, pedigrees, certificates, DNA requests and results, payments etc. We encourage all members and breeders to use other means of courier, delivery services and electronic services to send materials to CLRC.

Although CLRC will use email as much as possible to communicate with breeders, members and associations, it is possible there will be delays beyond our control. We are asking all associations to advise their members, including American and other international members, of the potential strike and disruptions that may be caused by a Canada Post strike. We encourage members to send their materials to us as soon as possible, and if possible by email or fax. We will endeavor to process as much as we can and return emailed copies until originals can be sent by mail.
