

Breeders Directory

Breeders of Belted Galloway Cattle

This is a list of members that responded to a request for member/breeder info to be shared via the BGS website. This list will be validated annually and at that time any non current dues paid members will be removed from this list. Additions to this list will be done yearly (in the fall) and will be announced via email and social media.

A complete listing of members and breeders of The Belted Galloway Society, Inc. are listed and may be sorted by state, name or farm name using the Digital Beef platform starting in January 2025. Member's physical address and contact information are available.

For our beef program, Crown H Cattle Company Belted Galloway Heritage cattle are raised naturally (hormone, antibiotic free), fed on our homegrown pastures and hay, and finished on our family ranch. Our breeding program includes both artificial insemination and natural service with our current bull, Sunnybrook Tony, aka Big Tony.

We are a diverse farm, being also a Benedictine Monastery. We raise Belted Galloway beef cows for meat, breeding and sale. We also raise Dutch Belt dairy cows and Shetland Sheep. We tend over 100 acres of pastures and hay fields and practice rotational grazing during the grazing season. Our beef cows are grass fed. Our farm also includes vegetable and flower gardens, orchards, grapevines and greenhouses, compost making and a preserving operation during the growing season.

Email: sbfarms@hotmail.com

Website: www.sunnybrookbelties.com

Our goal was to breed a small elite herd of Belted Galloways with superior genetics. CONSISTENCY-DEPENDABILITY-PROVEN PERFORMANCE- THE RIGHT KIND. This comes from generations of proven genetics. We want cattle that perform in pasture as well as in the show ring. Our motto "we don't breed show cattle, we show breeding cattle" is the foundation of what our breeding program is built on. We are proud to say we have genetics in all 50 states and Canada. We have breeding stock and embryos available at all times.

IOWA

This historic family farm is part of a conservation land trust established so that Madison County, Virginia will have land that remains rural for farming and future generations. We are a regenerative green farm and use solar energy to run the

farm, farm buildings and barn. We have designed the farm so that the watershed areas of the farm are environment friendly for all wildlife.

Our farm raises registered heritage Belted Galloways. Our cattle come from award winning heritage from farms such as Aldemere, Ponderosa, Mitchell Ledge, and Fearrington.

Our cattle are grass fed on our 275 acres. Our cattle are given natural minerals, no hormones, and no unnecessary antibiotics. Our cattle get plenty of shade and abundant fresh well water and fresh water from our creek. In the colder months our cattle are fed hay from our hay fields.

We are a family farm. The farm has been in the family for 3 generations. We currently have 130 acres, of which approximately 80 acres is pasture. We raise purebred registered Belted Galloway cattle. They are 100% grass-fed. We currently have 10 registered Cows/heifers and 1 registered bull. We keep 2 years of the calves, finishing them at the 24-28 month point for butcher, and marketing direct to consumers or via the sale of beef shares (i.e. 1/4, 1/2, and full beefs). We also keep few of the better heifers and bulls to sale as registered breeding stock.
