

# Breeders Directory

## Breeders of Belted Galloway Cattle

This is a list of members that responded to a request for member/breeder info to be shared via the BGS website. This list is validated annually to ensure members are still in good standing with the Society. Additions to this list will be done yearly in the fall and will be announced via email and social media.

A COMPLETE listing of members and breeders of the Belted Galloway Society Inc. are listed and may be sorted by state, name or farm name using the Digital Beef platform.

**Our goal was to breed a small elite herd of Belted Galloways with superior genetics. CONSISTENCY-DEPENDABILITY-PROVEN PERFORMANCE- THE RIGHT KIND. This comes from generations of proven genetics. We want cattle that perform in pasture as well as in the show ring. Our motto "we don't breed show cattle, we show breeding cattle " is the foundation of what our breeding program is built on. We are proud to say we have genetics in all 50 states and Canada. We have breeding stock and embryos available at all times.**

**Email: [Kincaid@msu.edu](mailto:Kincaid@msu.edu)**

**Website: <https://www.facebook.com/rollingacresfarmgoblesmi>**

Rolling Acres Farm LLC in MI is our family farm with roots to the early 1840's that has natural land preserves and organic farming. The farm is a very scenic natural geographical area. Our Dad would say, 'Our farm is a little piece of Heaven on Earth.' The land consists of rolling hills, flat lands, three lakes, streams, and mature wooded areas. The natural preserves have a variety of vegetation and wildlife, all in their own

ecosystems systems and habitats. The agricultural land is organically farmed, with rotating crops. Hay grasses with clover and alfalfa, and silage corn are planted.

Arable fields are also rented to an organic milk farmer. Our grass fed Belted Galloway beef cattle are raised on the farm. The Belties are used for breeding, sold, or sold for beef. Honey Bees are another beneficial addition to our farm. Bees help pollinate the crops and natural vegetation on the farm. A local beehive owner rents the land for the bees. Of course, the honey is a treat.

## **MISSOURI**

### **BACKWOODS BELTED GALLOWAY**

**Email: [mrbs\\_redbgalloway@yahoo.com](mailto:mrbs_redbgalloway@yahoo.com)**

I am the world's largest breeder of JUST RED registered Belted Galloway cattle. My Ranch is strictly for cattle production. I do raise my own alfalfa for hay production. I did get my RED cattle from Keith Jones at Driftwood Plantation. That is the only place that I could find any red cattle to be sold. My foundation cow was Driftwood Kendra 47S. I used her for my ET program. My first successful flush produced three embryos'. Two bulls and a heifer. MRB'S Red Bandana 725 (AI)(ET) which I am still using. MRB'S Red Farkleberry 704 (AI)(ET) still working in the herd and MRB'S Red Arrow 723 (AI)(ET) which was sold. The grandmother of my first embryo flush was two time Canadian Grand Champion cow Du Rapide Guess Who 32G. Now you can buy whatever red cattle you want. Bred cows, Bred heifers, heifer calves, bulls, bull calves and steers. This year, I had 34 red calves born. I was able to get 85% of the calves born in the first 21 days of calving. I start to calve around the first part of April. I always hope mother nature is good as I calve outside.

## **SHOULDERBONE FARM**

**Debra G Speyer**

**Member:** 5391381

**Address:** 737 Quaker Run Road, Madison VA 22727

**Phone:** 215-519-6426

**Email:** [Shoulderbonefarms@yahoo.com](mailto:Shoulderbonefarms@yahoo.com)

**Website:** [Shoulderbonefarms.com](http://Shoulderbonefarms.com)

This historic family farm is part of a conservation land trust established so that Madison County, Virginia will have land that remains rural for farming and future generations. We are a regenerative green farm and use solar energy to run the farm, farm buildings and barn. We have designed the farm so that the watershed areas of the farm are environment friendly for all wildlife.

Our farm raises registered heritage Belted Galloways. Our cattle come from award winning heritage from farms such as Aldemere, Ponderosa, Mitchell Ledge, and Fearington.

Our cattle are grass fed on our 275 acres. Our cattle are given natural minerals, no hormones, and no unnecessary antibiotics. Our cattle get plenty of shade and abundant fresh well water and fresh water from our creek. In the colder months our cattle are fed hay from our hay fields.

**Email: [ldvest81@gmail.com](mailto:ldvest81@gmail.com)**

**We raise purebred registered Belted Galloway cattle. They are 100% grassfed. We currently have 13 registered Cows/heifers, 1 steer, and 1 registered bull. We also have a few odds (i.e. a yearling steer that we plan to butcher for our own consumption, an unregistered Belted Galloway cow, and a Black Angus cow with Belted Galloway/Angus cross calf). We plan to keep 2 years of the calves, finishing them at the 24-28 month point for butcher, and marketing direct to consumers or via the sale of beef shares (i.e. ¼, ½, and full beefs). We also plan to keep few of the better heifers and bulls to sale as registered breeding stock.**

**We are a family farm. The farm has been in my wife's family for 3 generations. We currently have 130 acres, of which approximately 80 acres is pasture. We are in the process of resurrecting the farm. It had been leased for many years, and the tenant didn't take very good care of the farm. The fences were in shambles and the soil hadn't been amended in many years. We are building new fence as we open pasture to our small herd, and amending the soil on each of the paddocks this coming spring with lime and fertilizer.**

**I am a retired US Naval Officer, having spent 27 years in the US Navy and US Naval Reserve. In my civilian career, I was a computer programmer for 30 years, having retired on May 1st of this year. My wife is a retired Registered Nurse. It has always been our dream of retiring and resurrecting the family farm.**
